## Every woman needs the best care

Neotia Bhagirathi Woman and Child Care Centre, New Town offers special care for women in every phase of life. Generally, women in different age groups face different health problems and here all such issues are appropriately addressed. The department of Obstetrics and Gynaecology offers 360-degree health care services for women. Our primary focus is on providing top-of-the-line Gynaecological and Obstetric facilities to treat high-risk pregnancy cases, backed by Adult ICU.

High-end facilities for Gynaecological Laparoscopy surgeries, Specialised Spine and Orthopaedic Clinic and evaluation of fertility with infertility consultation & checkup are also available. Pregnancy, no doubt is a life-changing experience but complications can also occur to put at risk this beautiful natural process and can even threaten the baby's life. To treat such complications, we provide exceptional foetal medicine support including foetal echocardiography & specialists. The hospital also checks pre-existing health conditions, such as high blood pressure, diabetes and other hormonal problems thereby ensuring further complications do not occur. A broad spectrum of maternity services is also included like prenatal and postnatal care, ante-natal check-ups, physiotherapy, nutrition and diet counselling, and endocrine programmes. We, at Neotia Bhagirathi Woman and Child Care Centre, New Town provide holistic care for women in a stimulating environment for their emotional, psychological and physical well-being. The hospital décor themed on the various climatic zones incorporating the therapeutic properties of Mother Nature offers a relaxing and refreshing feel to every woman stepping into the hospital.
